Sexual Harassment

GAAC

The board of education is committed to providing a positive and productive working and learning environment, free from discrimination on the basis of sex, including sexual harassment. Sexual harassment will not be tolerated in the school district. Sexual harassment of employees or students of the district by board members, administrators, certificated and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Sexual harassment is unlawful discrimination on the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Sexual harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.) to sexually harass any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student or another employee from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy. Violation of this policy by any employee shall result in disciplinary action, up to and including termination.

Sexual harassment shall include, but not be limited to, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when: (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment; (2) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or (3) such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

Unacceptable conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, persuasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may also result in employee discipline.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the building principal. Employees who fail to report complaints or incidents of sexual harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Any act of retaliation against any person who has filed a complaint or testified, assisted, or participated in an investigation of a sexual harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including termination of employment.

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

Any district employee who has reason to know or suspect a child has been injured as a result of physical, mental or emotional abuse or neglect or sexual abuse, shall promptly report the matter to the local Kansas Department for Children and Family (DCF) office or to the local law enforcement agency if the DCF office is not open. Employees may file a report of suspected abuse anonymously to either DCF by phoning 1-800-922-5330 or to local law enforcement officials. The Code for Care of Children also provides civil immunity from prosecution if the report is made in good faith.

The employee making the report will not contact the child's family or any other persons to determine the cause of the suspected abuse or neglect.

DCF or Law Enforcement Access to Students on School Premises

The building principal shall allow a student to be interviewed by DCF or law enforcement representatives on school premises to investigate suspected child abuse and shall act as appropriate to facilitate the agency's access to the child and to protect the student's interests during the process. State law grants the investigating agency the authority to determine whether a school employee may be present while the interview is being conducted, taking into account the child's best interests. If asked to sit in on the interview by the agency representative conducting it, the building principal or designee thereof shall oblige such request in order to provide comfort to the child throughout the process and to facilitate the investigation.

Cooperation between School and Agencies

Principals shall work with DCF and law enforcement agencies to develop a plan of cooperation for investigating reports of suspected child abuse or neglect. To the extent that safety is not compromised, law enforcement officers investigating complaints of suspected child abuse or neglect on school property shall not be in uniform.

Reporting Procedure

The employee shall promptly report to the local DCF office or law enforcement if DCF is closed. It is recommended the building administrator also be notified after the report is made.

If the building principal has been notified, the principal shall immediately notify the superintendent that the initial report to DCF has been made. If appropriate, the principal may confer with the school's social worker, guidance counselor or psychologist. At no time shall the principal or any other staff member prevent or interfere with the making of a suspected child abuse report.

If available, the following information shall be given by the person making the initial report: name, address and age of the student; name and address of the parents or guardians; nature and extent of injuries or description of neglect or abuse; and any other information that might help establish the cause of the child's condition.

Any personal interview or physical inspection of the child by any school employee shall be conducted in an appropriate manner with an adult witness present.

State law provides that anyone making a report in good faith and without malice shall be immune from any civil liability that might otherwise be incurred or imposed.

Emergency Safety Interventions

GAAF

The board of education is committed to limiting the use of Emergency Safety Intervention (“ESI”), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student's conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

“Law enforcement officer” and “police officer” mean a full-time or part-time salaried officer or employee of the state, a county, or a city, whose duties include the prevention or detection of crime and the enforcement of criminal or traffic law of this state or any Kansas municipality. This term includes a campus police officer.

GAAF-2

“School resource officer” means a law enforcement officer or police officer employed by a local law enforcement agency who is assigned to a district through an agreement between the local law enforcement agency and the district.

“School security officer” means a person who is employed by a board of education of any school district for the purpose of aiding and supplementing state and local law enforcement agencies in which the school district is located, but is not a law enforcement officer or police officer.

“Seclusion” means placement of a student in a location where all of the following conditions are met: (1) the student is placed in an enclosed area by school personnel; (2) the student is purposefully isolated from adults and peers; and (3) the student is prevented from leaving, or reasonably believes that he or she will be prevented from leaving the enclosed area.

“Time-out” means a behavioral intervention in which a student is temporarily removed from a learning activity without being secluded.

Prohibited Types of Restraint

All staff members are prohibited from engaging in the following actions with all students:

- Using face-down (prone) physical restraint;
- Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student’s airway;
- Using physical restraint that impacts a student’s primary mode of communication;
- Using chemical restraint, except as prescribed treatments for a student’s medical or psychiatric condition by a person appropriately licensed to issue such treatments; and
- Use of mechanical restraint, *except*:
 - Protective or stabilizing devices required by law or used in accordance with an order from a person appropriately licensed to issue the order for the device;
 - Any device used by a certified law enforcement officer to carry out law enforcement duties; or
 - Seatbelts and other safety equipment when used to secure students during transportation.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student’s behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day

Emergency Safety Interventions

GAAF-4

notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school

Emergency Safety Interventions

GAAF-6

employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

5. Termination or nonrenewal of employment relationship.

Prior to applying sanctions under this policy, employees will be afforded due process rights to which they are entitled under their contracts, if any, or the provisions of Kansas law. Nothing in this policy is intended to diminish the right of the district to take any other disciplinary action. This policy is not intended to change any right, duty or responsibilities in the current negotiated agreement.

If it is agreed that an employee shall enter into and complete a drug education or rehabilitation program, the cost of such program will be borne by the employee. A list of area drug and alcohol counseling and rehabilitation programs along with names and addresses of contact persons for the programs, is on file with the board clerk.

Employees are responsible for contacting the directors of the programs to determine the cost and length of the program, and for enrolling in the programs. If participation in such a program is required as a condition of continued employment, copies of any documentation related to enrollment in and attendance in such program shall be made available to the board and/or administration upon request.

A copy of this policy shall be provided to all employees.

Workers Compensation and Disability Benefits

GAOE

The district will participate in workers compensation as required by current statute. The combined workers compensation benefits and salary received under allowed paid leave shall not exceed one full day's pay.

All employees of the district shall be covered by workers compensation. Workers compensation coverage is provided for all employees regardless of assignment, length of assignment, and/or hours worked per day. Benefits are for personal injury from accident or industrial diseases arising out of and in the course of employment in the district.

An injured employee must notify the designated employer's workers compensation coordinator or, if the coordinator is unavailable, his or her supervisor within 20 days of the injury or within 20 days of repetitive trauma in order to be eligible for benefits.

The workers compensation plan will provide coverage for medical expenses and wages to the extent required by statute to those employees who qualify; however, the amount of workers compensation benefits and paid leave benefits shall not exceed a regular daily rate of pay. An employee using paid leave in combination with workers compensation will be charged for one full or partial day of paid leave, as provided for in the applicable leave policy or the negotiated agreement, for each day of absence until the employee's paid leave is exhausted.

Any employee who is off work and receiving workers compensation benefits shall be required to provide the designated workers compensation coordinator with a written doctor's release before the employee is allowed to return to work. In addition, should the employee be released to return to work by a doctor and fail to do so, all benefits under paid leave shall terminate, and those benefits under workers compensation shall be restricted as provided by current statute.

Whenever an employee is absent from work and is receiving workers compensation benefits due to a work-related injury or is receiving district paid disability insurance, the employee may use available paid leave to supplement the workers compensation or district paid disability insurance payments. Workers compensation benefits and FMLA benefits provided in a board approved plan shall run concurrently if both are applicable.

In no event shall the employee be entitled to a combination of workers compensation benefits, district paid disability insurance, and salary in excess of his/her full salary. Available paid leave may be used for this purpose until 1) available paid leave benefits are exhausted; 2) the employee returns to work; 3) the employee is released by the medical provider and a position is offered by the employer, but the employee declines to return to work; or 4) employment is terminated. Paid leave shall be calculated on a prorata amount equal to the percentage of salary paid by the district.

Testing

The board, through its designated workers compensation coordinator, may require a post-injury chemical test as authorized by K.S.A. 44-501 et seq., and, if such test is refused, all workers compensation benefits shall be forfeited by the employee.

Choice of Physician

The board shall have the right to choose a designated health care provider to provide medical assistance to any employee who suffers an injury while performing their job. However, if the injured employee chooses to go to a medical provider other than the designated provider, the recovery for such expenses shall be limited to \$500.00.

Military Leave

GARID

Employees are entitled to military leave under the Uniformed Services Employment and Reemployment Act of 1994. The Act applies to military service that began on or after December 12, 1994 or military service that began before December 12, 1994 if the employee was a reservist or National Guard member who provided notice to the employer before leaving work.

Reemployment rights extend to persons who have been absent from work because of “service in the uniformed services.” The uniformed services consist of the following military branches:

- Army, Navy, Marine Corps, Air Force or Coast Guard.
- Army Reserve, Navy Reserve, Marine Corps Reserve, Air Force Reserve or Coast Guard Reserve.
- Army National Guard or Air National Guard.
- Commissioned corps of the Public Health Service.
- Any other category of persons designated by the President in time of war or emergency.
- “Service” in the uniformed services means duty on a voluntary or involuntary basis in a uniformed service, including:
 - Active duty.
 - Active duty for training.
 - Initial active duty for training.
 - Inactive duty training.
 - Full-time National Guard duty.
 - Absence from work for an examination to determine a person’s fitness for any of the above types of duty.

The employee may be absent for up to five (5) years for military duty and retain reemployment rights. There are, however, exceptions, which can exceed the five (5) years limit. Reemployment protection does not depend on the timing, frequency, duration or nature of an individual’s service. The law enhances protections for disabled veterans including a requirement to provide reasonable accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

The returning employee is entitled to be reemployed in the job that they would have attained had they not been absent for military service, with the same seniority, status and pay, as well as other rights and benefits determined by law. If necessary, the employer must provide training or retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing military service, he or she is deemed to be on a furlough or leave of absence and is entitled to the non-seniority rights accorded other individuals on non-military leaves of absence. Individuals performing military duty of more than 30 days may elect to continue employer sponsored health care for up to 18 months at a cost of up to 102 percent of the full premium. For military service of less than 31

Military Leave

GARID-2

days, health care coverage is provided as if the individual had never left. All pensions, which are a reward for length of service, are protected.

Individuals must provide advance written or verbal notice to their employers for all military duty. Notice may be provided by the employee or by the branch of the military in which the individual will be serving.

Notice is not required if military necessity prevents the giving of notice; or, the giving of notice is otherwise impossible or unreasonable.

Accrued vacation or annual leave may be used (but is not required) while performing military duty. The individual's timeframe for returning to work is based upon the time spent on military duty.

<u>TIME SPENT ON MILITARY DUTY</u>	<u>RETURN TO WORK OR APPLICATION FOR REEMPLOYMENT</u>
Less than 31 days:	Must return at the beginning of the next regularly scheduled work period on the first full day after release from service, taking into account safe travel home plus an eight (8) hour rest period.
More than 30 but less than 181 days:	Must submit an application for reemployment within 14 days of release from service.
More than 180 days:	Must submit an application for reemployment within 90 days of release from service.

The individual's separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing:

- a. the application for reemployment is timely;
- b. the five-year service limitation has not been exceeded; and,
- c. separation from service was under honorable conditions.

If documentation is not readily available or it does not exist, the individual must be reemployed. However, if after reemploying the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

Military Leave

GARID-3

Questions should be directed to Veterans' Employment and Training Service, U.S. Department of Labor.
Kansas law also requires reemployment if an individual is called to active duty by the state.

BOE Reviewed and Approved: September 8, 2008

BOE Reviewed and Approved: April 19, 2010

BOE Approved KASB Recommendation: August 16, 2010.

The board encourages district employees to use technology, including communication devices, to improve efficiency and safety. The district expects all employees to use communication devices in a responsible manner that does not interfere with the employee's job duties. Employees who violate district policies and procedures governing the use of communication devices may be disciplined, up to and including termination, and may be prohibited from possessing or using communication devices while at work. Communication devices may not be used in any manner that would violate the district's policy on student-staff relations.

Definitions

“Communication device” is defined to include all portable devices that send or receive calls or text messages, allow the retrieval of email, or provide access to the Internet. Communication devices shall include, but may not be limited to cell phones, smart phones, iPads, and tablets.

“Use/Using” for the purposes of this policy mean answering or talking on the phone; sending or responding to a text, e-mail, or other communication; opening and viewing pictures or digital recordings; opening and listening to music or audio communications; accessing social media websites; playing games on such device; continuously checking a communication device; or any activity with a communication device that interferes with the employee’s job duties or appropriate supervision of students.

General Use

The district prohibits employees from using any communication device that interrupts or disrupts the performance of duties by the employee or otherwise interferes with district operations, as determined by the employee's supervisor. This prohibition applies regardless of whether the communication device used is owned by the employee or provided by the district. Employees are responsible for keeping communication devices secure and, if possible, password protected.

Supervision of students and the provision of academic instruction are priorities in the district, and employees who are responsible for supervising and/or providing academic instruction to students must concentrate on these tasks at all times. Employees shall not use communication devices when they are responsible for supervising students or when their doing so interrupts or interferes with classroom instruction unless any of the following conditions occurs:

- The device is being used to instruct the students being supervised at the time;
- The use is necessary to the performance of an employment-related duty;
- The employee has received specific and direct permission from a supervisor to do so; or
- There is an emergency.

Even when these conditions exist, the employee is responsible for obtaining assistance in adequately supervising students during the approved use so that students are supervised at all times.

Use in Vehicles

Regardless of other provisions of this policy, unless there is an emergency, employees shall not use communication devices when:

- Driving district-provided vehicles;
- Operating a vehicle in which a student is being transported when the transportation is provided as part of the employee's job; or
- Unless otherwise noted all of the following policies were re-adopted July 21, 2014.
- Supervising students who are entering or exiting a vehicle, crossing thoroughfares, or are otherwise attempting to safely reach their destinations.

Even in emergency situations, employees should first take all possible safety precautions before using communication devices. Employees are subject to local, state, and federal laws governing use of cell phones while driving and will be solely responsible for all traffic violation liabilities resulting from their use of a phone while driving.

Use of District-Provided Communication Devices

The district may provide communication devices and service to some employees to assist them in carrying out their employment-related duties on and off district property. Use of a district-provided communication device is a privilege. The superintendent or designee has sole discretion as to which employees will be provided communication devices and may recall any previously issued communication device. Employees do not have any expectation of privacy in district-provided communication devices or any information stored on them, and such devices may be confiscated and searched at any time.

Employees are expected to exercise reasonable care to protect district-provided communication devices from damage or theft and must report any such incidents immediately. The district may require employees to reimburse the district for any damage or theft that was the result of the employee's negligence. Users of district-provided communication devices must abide by any use limitations included in the district's service contract.

Personal Use of District-Provided Communication Devices

Personal use of district-provided communication devices is permissible as long as the use does not exceed the limits of the applicable plan. An employee whose use exceeds plan limitations will be required to reimburse the district for all expenses beyond those covered by the plan and may have privileges suspended or revoked unless the employee can show that all use was for employment-related duties and the device was not used for personal reasons. The amount of personal use of a communication device or service paid for under E-Rate can be no greater than the cost allocation submitted in the request for the E-Rate discount. Staff members electing to use district communication devices for personal reasons will be subject to income tax liability for such benefit.

Staff Bring Your Own Device Policy

Use of employees' personal communication devices during work hours shall be restricted to classroom or work-related activities. Such personal communication devices may only be used by the staff member and are not for student use. The security of personal computing devices is solely the responsibility of the staff member. Any loss resulting from damage or theft of personal communication devices in the school setting is not the responsibility of the district.

Sick leave time, paid holidays, annual leave, weather-related absences, jury duty, compensatory time, etc. are not considered hours worked according to the Fair Labor Standards Act. As such, overtime is not paid when those hours are part of the excess of forty (40) in a week. The FLSA requirement to pay overtime for hours worked over forty (40) in a week applies only to time the employee actually spends working. Entry into overtime work will be voluntary by the employee and must be at the request of district supervisory personnel, with the approval of the associate superintendent.

Certified Employees

Certified employees are exempt from the Fair Labor Standards Act.

Compensatory Time

If an employee works more than forty (40) hours during a specific work week, that person may receive compensatory time rather than overtime pay. Employees working three and one-half (3 ½) to seven (7) hours per day shall be credited with leave in proportion to their work schedule. Sick leave may accumulate from year to year for consecutive service only. If an employee is off the payroll at any time during the normal working year, his/her sick leave accumulation is lost.

- a. Termination Pay: Upon termination with the district, an employee will be paid one third (1/3) of up to the amount of 100 accumulation days of sick leave.
- b. Use of Sick Leave: Sick leave days must be used for personal illness or injury and/or illness, injury, or death in the immediate family. Medical disability due to pregnancy shall be treated the same as any other medical disability. A certificate signed by a licensed physician verifying illness or injury may be required by the Board and/or Superintendent. The Board may require an independent medical opinion, at the Board's expense, from another licensed physician. Sick leave will be used only on days the employee is assigned to work.

- c. Personal Business Leave: Employees will be permitted to use three (3) of the ten (10) days of sick leave each year for personal business leave. Personal business leave may be used to transact business, which cannot normally be transacted outside of the workday. Personal business leave may not be used immediately prior to or following any school vacation or holiday. Personal business leave will be used only on days the employee is assigned to work. May be waived at the discretion of the immediate supervisor.

No salary will be allowed under the provision of this policy for days missed in excess of those accumulated or for reasons other than those specified. In case of termination during the fiscal year (July 1 - June 30), the total accumulated sick leave shall be computed at the rate of one (1) day per month worked to a maximum of the ten (10) days during that year. Any days missed and paid for in excess of the total accumulated temporary leave will be deducted from the final salary check, or, if the final check is not of an amount sufficient to cover same, the terminating employee will be expected to reimburse the school district for the difference.

Employees shall notify their principal or immediate supervisor as soon as prudently possible when sick leave or personal leave is to be taken.

The daily rate of pay granted for sick leave or personal leave will be based on the number of hours the employee works during a normal day.

The student has 10 school days in which those designated tasks developed by the teacher and approved by the administration must be performed. The principal, in consultation with the instructor, will determine the setting and the timelines for the administration of the instrument, as well as the criteria for successful completion of those tasks.

Credit for such classes shall be awarded only on a pass/fail basis. Students will be allowed only one opportunity to “test out” of any particular class. It will not be the responsibility of the school or the instructor to provide instructional and/or review time for the student. However, the outcomes, as noted in the district curriculum guide, and class syllabus will be made available.

GUIDELINES FOR ANIMALS ON DISTRICT PROPERTY

Animals are not allowed on district property, including district transportation, except in accordance with law and policy.

Definitions

The following definitions shall be used for the purpose of applying this policy.

Animal = Any nonhuman creature.

Handler = The individual responsible for the care and control of an animal. The handler for a service animal will generally be the individual with a disability served by the animal; however, under some circumstances, the handler may be someone other than the individual with the disability.

Service Animal = Any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical or sensory disability or a psychiatric, intellectual or other mental disability. The work or tasks performed by a service animal must be directly related to the disability of the individual being served. Examples of work or tasks include, but are not limited to: assisting individuals who are blind or have low vision with navigation and other tasks; alerting individuals who are deaf or hard of hearing to the presence of people or sounds; providing nonviolent protection or rescue work; pulling a wheelchair; assisting an individual during a seizure; alerting individuals to the presence of allergens; retrieving items such as medicine or a telephone; providing physical support and assistance with balance and stability to individuals with mobility disabilities; and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

For the purposes of this policy and subject to the limitations herein, a miniature horse will also be considered a service animal.

Tether = A harness, leash or other similar restraint.

Therapy Animal = Any animal that is not a service animal and whose primary purpose is to provide emotional support, well-being, comfort or companionship.

Service Animals

Service animals are permitted on district property, including district transportation, in accordance with law. The district will make modifications as necessary to allow for the presence of service animals; however, if the service animal is a miniature horse, the district will first determine if such modifications are reasonable by considering the size and weight of the miniature horse and whether the horse's presence in the facility compromises legitimate safety requirements.

All service animals must be under the control of their handlers. Service animals must have a tether unless the handler is unable to use one or unless the use of a tether would interfere with the service animal's safe, effective performance. Animals that are not tethered must be under the control of the handler through some other means, such as voice commands or hand signals.

The district will not allow service animals to remain on district property if they are not housebroken or are out of control. If a service animal is properly excluded from district property, the individual with a disability served by the animal will be given the opportunity to participate in the program, service or activity without having the service animal on district property.

District officials may verify that an animal qualifies as a service animal by asking whether the animal is required because of a disability and what work or tasks the animal has been trained to perform, if it is not readily apparent. Except as otherwise specified in this policy, district officials will not inquire about the nature or extent of the individual's disability or require the individual to provide documentation that the animal is a service animal.

Animals as Accommodations for Employees and Students

Employees and students may use service animals pursuant to the "Service Animals" section of employee's or student's disability as permitted by law this policy; however, the district may make additional inquiries about the nature and extent of the.

Employee requests for use of an animal other than a service animal as an accommodation must be made in accordance with Board policy. If the employee's request for an animal other than a service animal is granted, the rules for use of the animal will be specified at the time the accommodation is granted.

A student with a disability will only be allowed to have an animal other than a service animal as an accommodation in accordance with the student's individualized education program (IEP) or Section 504 plan. If a student's IEP or Section 504 plan allows the use of an animal other than a service animal, the special education director, compliance officer or designee will work with the student and the parents/guardians of the student to create a plan for the animal's care. The

student will be primarily responsible for the care and control of any animal used as an accommodation unless otherwise provided in the IEP or Section 504 plan.

Animals Used in Instruction

General

1. Animals with venom that is harmful to humans will not be allowed on district property.
2. An animal will not be allowed on district property without proof of current vaccinations to prevent the spread of diseases, such as rabies, to humans unless vaccinations are not required in the opinion of a veterinarian.
3. Animals are prohibited from being on district property if anyone has been ticketed or charged for the behavior of the animal.
4. Animals will never be maintained in or near an area where outside air is brought into district buildings.
5. Live animals may not be transported on district transportation and, unless specific permission from the building administrator is given otherwise, must be kept in a pen, cage or tank while on district property.
6. If students will be handling live animals, the employee responsible for the animal must instruct the students in proper handling techniques designed to minimize the danger of injury to the students and the animal. Protective clothing or equipment must be used when warranted.

Therapy Animals

Staff members may use therapy animals in the course of their regular duties only after receiving permission from the administrator of the building where the animal will be used. Before permission to use therapy animals is granted, staff members must provide:

1. Proof that the animal is certified to be a therapy animal.
2. An explanation of how the animal will be used, including research supporting the use of therapy animals.
3. A plan for how the staff member will provide for the care and control of the animal.
4. A plan for how the staff member will accommodate students with allergies to the animal.

Animals Used as Part of the Curriculum

Staff members who wish to use live animals to implement the curriculum must obtain permission from the administrator of the building where the animal will be used prior to introducing an animal into the curriculum. Before permission to use live animals to implement the curriculum is granted, staff members must provide their building administrator with:

1. A statement that the animal does not present a danger to students or staff members.
2. A statement of the instructional purpose, tied to the district's curriculum, that the animal will serve.
3. A plan for how the staff member will provide for the care and control of the animal.
4. A plan for how the staff member will accommodate students with allergies to the animal.

The requirements of this subsection will be waived for courses that routinely use live animals, such as courses in the district's agriculture instruction program, when the course curriculum has been approved by a supervisor.

Animal Habitats

As part of the instructional program, students and staff members may be granted permission to develop habitats that attract various forms of wildlife. Any plan to develop a habitat must be presented to the appropriate building administrator in advance of the project. The building administrator will consult with the central office administrator responsible for facilities and grounds prior to giving approval for the project.

Animals Used by Law Enforcement

The district allows the use of animals by law enforcement personnel in conjunction with the performance of their official duties. The district will work with law enforcement to avoid frightening students or unduly disrupting instruction when using animals.

Resident Students

A “resident student” is any child who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. Children who are “homeless” as defined by Kansas law and who are located in the district will be admitted as resident students. For purposes of this policy, “parent” means the natural parents, adoptive parents, step-parents, and foster parents. For purposes of this policy, “person acting as a parent” means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support, or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Non-resident Students

Non-resident students are those who do not meet the definition of a resident student. Although the district is not required to admit non-resident students, non-resident students may be admitted to the extent that staff, facilities, equipment, and supplies are available. Other criteria regarding students seeking non-resident student admittance may be considered prior to acting on any non-resident application. Such criteria may include student grades, attendance and disciplinary records, and other factors as determined by the board.

Parent(s) of non-resident student(s) may apply to have their child enroll in Haysville School District through the Limited Open Enrollment process. Parents shall be required to furnish academic, discipline and attendance records for each student. These records will be used by building principals to determine whether each student will be allowed to enroll or not. The decision of the principal in terms of enrollment is final. Each principal will annually evaluate the status of the non-resident student in terms of discipline and attendance. The principal will inform the parents of the non-resident student regarding enrollment for the next school year. The principal’s decision in this matter is final.

Should any non-resident student provide incomplete, inaccurate, or erroneous information, said student may be suspended for the remainder of the school year at the discretion of the superintendent.

Parents planning immediate residence in U.S.D. #261 may be permitted to enroll their children in the public schools, unless otherwise prohibited by the policy rules and regulations of the board of education, upon the written approval of the superintendent of schools. Such approval shall be contingent upon the completion of a residence presently under construction, the closing of a purchase transaction presently in process, or some similar situation. In all cases the family must be a bona fide resident of the school district no later than sixty (60) days after such approval for enrollment is granted.

Alternative Education / Haysville High School

Because the Board of Education wishes to allow out-of-district students the opportunity to avail themselves of a quality alternative education, provisions to admit out-of-district students are as follows:

1. In district students will have priority over out-of-district students. The number of slots available for out-of-district students will be based on the out-of-district count established on the official count date.
2. The student must have had at least one year of attendance at an accredited high school.
3. The student must have approval of admission from the Campus High School Principal.
4. Admittance to the Haysville High School Program of a non-resident student does not grant the student the right to transition into the traditional program of Campus High School.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Non-Resident Employees

The children of non-resident, benefit eligible, employees may attend the USD 261 schools at the discretion of the superintendent of schools.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Students

Part-time students may enroll with the (board's/administration's) permission if they complete all paperwork in a timely fashion and are in attendance no later than the 8th day of class. Part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are available and the students follow the district's student conduct policies and rules.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or other documentation which the board determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript, similar pupil records or data, or other documentary evidence the board deems satisfactory.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate, or as changed by a court order and the name, address, telephone number of the lawful custodian.

The records shall also provide the identity of the student as evidenced by a certified birth certificate, copy of a court order placing the student in the custody of Kansas Department of Children and Family Services, a certified transcript of the student, a baptismal certificate or other documentation the board considers satisfactory.

Assignment to a School Building, Grade Level, or Classes

The superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent. Assignment to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal's decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In middle school and high school, full faith and credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal determines there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with parents or guardians and guidance personnel. Final placement shall be made by the principal based on the student's documented past educational experiences and performance on tests administered to determine grade level placement.

Homeless Student Regulations

Required by Federal and State Law

NOTE: This document MUST be approved by board action to become policy. File with clerk, distribute to principals and duplicate as necessary in district newsletters and other documents.

Homeless students shall, by definition, include the following:

1. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals.
2. Children and youth who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.
3. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings.
4. Migratory children who meet one of the above-described circumstances.

Enrollment/Placement (See JBC)

The district, according to the child's or youth's best interest, shall either continue the child's or youth's education in the school of origin for the duration of homelessness in any case in which: 1) a family becomes homeless between academic years or during an academic year; and 2) for the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or enroll the child or youth in any public school that non-homeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

School Stability

In determining the best interest of the child or youth, the district homeless student liaison shall:

1. presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
2. consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth;
3. if, after conducting the best interest determination based on consideration of the presumption in clause (1) and the student-centered factors in clause (2), it is determined that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal such determination; and
4. in the case of an unaccompanied youth, ensure that the district homeless student liaison assists in placement or enrollment decisions under this subparagraph, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

Immediate Enrollment

The school selected shall immediately enroll the homeless child or youth, even if the child or youth:

1. is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency, or other documentation; or
2. has missed application or enrollment deadlines during any period of homelessness.

Relevant Academic Records

The enrolling school shall immediately contact the school last attended by the child or youth to obtain relevant academic and other records.

Relevant Health Records

If the child or youth needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent or guardian of the child or youth, or (in the case of an unaccompanied youth) the youth, to the district homeless student liaison, who shall assist in obtaining necessary immunizations or screenings, or immunization or other required health records.

Records

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained so that the records involved are available, in a timely fashion, when a child or youth enters a new school or school district and in a manner consistent with the Family Educational Rights and Privacy Act. See policies JR through JRD.

Enrollment Disputes

If a dispute arises over eligibility, school selection, or enrollment in a school:

1. the child or youth shall be immediately enrolled in the school in which enrollment is sought (whether sought by the parent, guardian, or unaccompanied youth), pending final resolution of the dispute, including all available appeals;
2. the parent or guardian of the child or youth or (in the case of an unaccompanied youth) the youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency, or the State educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions; and
3. the parent, guardian, or unaccompanied youth shall be referred to the district homeless student liaison, who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute.

Placement Choice

The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.

Privacy

Information about a homeless child's or youth's living situation shall be treated as a student education record, and shall not be deemed to be directory information, under policy JRB.

Contact Information

Nothing shall prohibit the district from requiring a parent or guardian of a homeless child or youth to submit contact information.

Definition

The term “school of origin” means the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool.

When the child or youth completes the final grade level served by the school of origin, the term “school of origin” shall include the designated receiving school at the next grade level for all feeder schools.

Comparable Services

Each homeless child or youth shall be provided services comparable to services offered to other students in the school selected, including:

1. Transportation services;
2. Educational services for which the child or youth meets the eligibility criteria, such as services provided under title I of the Elementary and Secondary Education Act of 1965 or similar State or local programs, educational programs for children with disabilities, and educational programs for English learners;
3. Programs in career and technical education;
4. Programs for gifted and talented students; and
5. School nutrition programs.

Coordination

The district shall coordinate the provision of services under these regulations with the Department for Children and Families and other agencies or entities providing services to homeless children and youths and their families, including services and programs funded under the Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.), and transportation, transfer of school records, and other interdistrict activities, with other local educational agencies.

Housing Assistance

If applicable, the district shall coordinate with state and local housing agencies responsible for developing the comprehensive housing affordability strategy to minimize educational disruption for children and youths who become homeless.

The coordination required shall be designed to:

1. ensure that all homeless children and youths are promptly identified;
2. ensure that all homeless children and youths have access to, and are in reasonable proximity to, available education and related support services; and
3. raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness.

Homeless Children and Youths With Disabilities

For children and youths who are both homeless and eligible for services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the district shall coordinate the provision of services under these regulations with the provision of programs for children with disabilities served by the district and other involved local educational agencies.

District Homeless Student Liaison

The board designates the following individual to act as the district's homeless student liaison: (Name of Office) (Business Address) (Phone-Fax). The district shall inform school personnel, service providers, and advocates working with homeless families of the duties of this liaison.

The district homeless student liaison shall ensure:

7. enrollment disputes are mediated in accordance with these regulations;
8. the parent or guardian of a homeless child or youth, and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school that is selected;
9. school personnel providing services under these regulations receive professional development and other support; and
10. unaccompanied youths:
 - a. are enrolled in school;
 - b. have opportunities to meet the same challenging state academic standards as Kansas establishes for other children and youth; and
 - c. are informed of their status as independent students under federal law regarding student financial assistance for higher education acquisition and that the youths may obtain assistance from the district homeless student liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid

The liaison shall also work with the state coordinator for education of homeless children and youth to request and receive needed technical assistance and monitoring to ensure the district complies with federal and state law regarding homeless students.

Similarly, the liaison will coordinate with the state coordinator in order to provide professional development opportunities for district personnel to aid them in identifying and meeting the needs of homeless children and youths and will respond to inquiries from parents, guardians, and homeless children and youths to ensure they are provided with the full protection of the law and services they are due.

The written complaint must include the following information: date of filing, description of concerns, the name of the person or persons involved, and a recapitulation of the action taken during the informal charge stage. Within five (5) working days after receiving the complaint, the liaison shall state a decision in writing to the complainant, with supporting evidence and reasons. In addition, the liaison will inform the superintendent of the formal complaint and the disposition.

Transportation (See EDAA, JBC and JGG)

If it is in the best interest of the homeless child or youth to attend the school of origin, transportation to and from that school will be provided at the request of the parent or guardian or, in the case of an unaccompanied youth, the homeless coordinator. If the student's temporary housing is outside the attendance area of the school of origin, then the district will work with the school of origin to agree on a method to apportion the responsibility and costs for transporting the child. Sexual Harassment

JGEC

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination on the basis of sex, including sexual harassment. Sexual harassment shall not be tolerated in the school district. Sexual harassment of employees or students of the district by board members, administrators, certificated and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Sexual harassment is unlawful discrimination on the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Sexual harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.) to sexually harass any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Sexual harassment is unwelcome sexual advances, requests for sexual favors and other inappropriate oral, written or physical conduct of a sexual nature when made by a member of the school staff to a student or when made by any student to another student when: (1) submission to such conduct is made, explicitly or implicitly, a term or condition of the individual's education; (2) submission to or rejection of such conduct by an individual is used as the basis for academic decisions affecting that individual; or (3) such conduct has the purpose or effect of interfering with an individual's academic or professional performance or creating an intimidating, hostile or offensive academic environment.

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include, but is not limited to: verbal harassment or abuse; pressure for sexual activity; repeated remarks to a person, with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning a student's grades, participation in extra-curricular activities, etc.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of sexual harassment and take prompt corrective action to end the harassment.

Any student who believes that he or she has been subjected to sexual harassment should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of sexual harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building principal or district compliance coordinator shall discuss

the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure. (See KN)

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable student conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.

An employee who witnesses an act of sexual harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of sexual harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the building coordinator or district coordinator shall report such conduct to the appropriate law enforcement or DCF authorities. (See GAAD)

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual's status or grades. Any act of retaliation against any person who has filed a complaint or testified, assisted, or participated in an investigation of a sexual harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and related materials shall be posted in each district facility. The policy shall also be published in student, parent and employee handbooks as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

Racial harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.) to racially harass any student, employee or other individual associated with the school. It shall further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Racial Harassment is racially motivated conduct which:

1. Affords a student different treatment, solely on the basis of race, color or national origin, in a manner which interferes with or limits the ability of the student to participate in or benefit from the services, activities or programs of the school;
2. Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile academic environment; or
3. Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with a student’s academic performance or ability to participate in or benefit from the services, activities or programs of the school.

Racial harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of racial harassment and take prompt corrective action to end the harassment.

Any student, who believes he or she has been subject to racial harassment or has witnessed an act of alleged racial harassment, should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member.

Any school employee who receives a complaint of racial harassment from a student shall inform the student of the employee’s obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator.

Racial Harassment: Students

JGECA-2

The building principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure (see KN).

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial harassment under the definition outlined above. Unacceptable student conduct may or may not constitute racial harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.

The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially motivated.

An employee who witnesses an act of racial harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or DCF authorities. (See GAAD)

To the extent possible confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial harassment shall not reflect upon the student's status or grades. Any act of retaliation against any person who has filed a complaint or testified, assisted, or participated in an investigation of a racial harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of racial harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and related materials shall be posted in each district facility. The policy shall also be published in student, parent and employee handbooks as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

Distributing Materials in Schools

KI

In accordance with rules adopted by the board, the superintendent reserves the right to refuse distribution to students any material by outside individuals or groups which creates a material or substantial interference with normal school activity or appropriate discipline in the operation of the school.

Materials Produced by Outside Groups–Including Religious Materials

The principal may establish rules and regulations, which control the time, place and manner in which non-school/educational materials are displayed and disseminated in the building or on school property. No student shall be forced to participate in the distribution or receipt of any non-school materials in the schools.

Political Campaign Materials

The board encourages responsible use of political materials as part of the board-approved curriculum. No student shall be forced to participate in the distribution or receipt of any political materials.

Advertising in the Schools

No advertising for commercial purposes shall be permitted in the school buildings or on the grounds of the district without prior board approval. Advertising in student publications shall be regulated by rules and regulations developed by the superintendent. Advertising in the student publications may promote products by brand name. Ads promoting the sale of any controlled substance, drug paraphernalia or any other illegal material or activity are prohibited.

Definitions

Commercial advertising - Includes any communication describing a business or service other than the legal name of the business.

Advertising materials - Include coupons, buy-one/get-one-free offers, descriptive brochures or printed materials, discounts or any other promotional items that do not benefit the holder without cost.

Commercial Advertising

Commercial advertising to promote products or services in the facilities or on the grounds of school property may be allowed only with prior written approval of the Principal/site administrator, who shall forward a copy of each approval/denial to the appropriate school director.

In considering each request, the Principal/site administrator shall determine if the advertisement detracts from the use of instructional time and is age-appropriate for students. Such determination shall follow review standards that prohibit language or depictions that:

- Contain profanity or obscenity;
- Are political advertisements;
- Promote violence or substances or activities illegal for minors; and/or
- Contain racial, ethnic, religious, sexual or handicap slurs, or any gang-associated affiliation.

Distributing Materials in Schools

KI-2

Placement of commercial advertisements on school property, such as banners and signage, shall be in keeping with Policy KI and accompanying procedures.

Funds received for approved projects involving advertising on school property shall be deposited to the school's internal account or may be retained by a school-related booster group that is sponsoring the activity as a fundraising event.

Exception

Nothing herein shall be construed to prevent advertising in publications which are published by student organizations, PTA/PTO, booster club, or other parent groups. However, a personal message from a parent, other individual or group offering best wishes, congratulations, etc., to a student, student group or school shall be limited to a pre-determined set of statement options, for District-sponsored or school-related group sponsored publications.

Solicitations

Salesmen, representatives, or agents shall not solicit or contact pupils, teachers, or other employees in the school buildings or on school grounds without prior approval.

Exceptions for Benefit Materials

Provided they are approved by the Department of Human Resources, Office of Employee Benefits, materials that promote Board-sponsored employee benefits and educate employees concerning them may be distributed in school facilities and on the grounds of school property, and advertised in the Haysville Public Schools' newsletter. If building rules permit, materials may be placed in employees' work site mailboxes. District staff shall not be permitted to distribute materials for any benefits vendor, except for materials delivered by United States Mail.

Fundraising Programs

Sales representatives promoting fund-raising projects shall complete a form provided by the Superintendent's designee. Copies of the form with attached brochures will then be forwarded to Principals for inclusion in a fund-raising program file. Should a Principal or school group become interested in a fund-raising program, the sales representative will be contacted.

Complaints

KN

The board encourages all complaints regarding the district to be resolved at the lowest possible administrative level. Whenever a complaint is made directly to the board as a whole or to a board member as an individual, it will be referred to the administration for study and possible resolution.

Discrimination against any individual on the basis of race, color, national origin, sex, disability, age, or religion in the admission or access to, or treatment or employment in the district's programs and activities is prohibited. Harassment of an individual on any of these grounds is also prohibited. The director of personnel of schools, 1745 W. Grand Ave., Haysville, KS 67060, 316-554-2200 has been designated to coordinate compliance with nondiscrimination requirements contained in Title VI of the Civil Rights Act of 1964, Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and The Americans with Disabilities Act of 1990. Information concerning the provisions of these Acts, and the rights provided thereunder, are available from the compliance coordinator.

Complaints About Discrimination or Discriminatory Harassment

Complaints of discrimination or discriminatory harassment by an employee should be addressed to the employee's supervisor, the building principal, or the district compliance coordinator. Complaints by a student should be addressed to the building principal, another administrator, the guidance counselor, or another certified staff member.

Any school employee who receives a complaint of discrimination or harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator.

Complaints by any other person alleging discrimination should be addressed to the building principal or the district compliance coordinator. Complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures:

Informal Procedures

The building principal shall attempt to resolve complaints of discrimination or harassment in an informal manner at the building level. Any school employee who receives a complaint of discrimination harassment from a student, another employee or any other individual shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution of the complaint, and forward this record to the district compliance coordinator. Within 20 days after the complaint is resolved in this manner, the building compliance coordinator shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved to the satisfaction of the individual in the meeting with the building compliance coordinator, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Unless otherwise noted all of the following policies were re-adopted July 16, 2018.

Formal Complaint Procedures

- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator or another individual appointed by the board. The investigation shall be informal but thorough. All interested persons, including the complainant and the person against whom the complaint is lodged, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.
- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and copy forwarded to the complainant no later than 30 days after the filing of the complaint.
- If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
- If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement or state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.
- The complainant may appeal the determination of the complaint. Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board, or by the board itself as determined by the board. The request to appeal the resolution shall be made within 20 days after the date of the written resolution of the complaint at the lower level. The appeal officer shall review the evidence gathered by the investigator and the investigator's report, and shall afford the complainant and the person against whom the complaint is filed an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed.
