Medical Statement to Request School Meal Modification

Important! Select the applicable meal modification category from the three listed below. Then carefully read and follow the procedures for that category. The school will return incomplete Medical Statements to the parent/guardian. If you have questions about this form, the school contact named in Part A below will assist you.

1. Modification due to a disability:

- A school is required to make meal modifications prescribed by a medical authority to accommodate a student's disability. See the definition of disability on the back of this form.
- Part B of this form must be completed by a "medical authority" that is authorized by Kansas state law to write medical prescriptions: licensed physician (MD or DO) OR a physician's assistant (PA) or an advanced registered nurse practitioner (ARNP) authorized by their responsible licensed physician.
- Parts A and C of this form must also be completed before the school can make meal modifications.
- The meal modifications will continue until the medical authority requests that the modifications be changed or stopped on Form 19-C, which is available from the school.
- It is strongly recommended that the medical authority annually update the prescribed diet order.

Modification due to a food allergy/intolerance, or other medical condition that does not rise to the level of a disability:

- A school has the option to make meal modifications prescribed by a medical authority due to a food allergy/intolerance
 or other medical condition that does not rise to the level of a disability.
- Part B of this form must be completed by a "medical authority" that is authorized by Kansas state law to write medical prescriptions: licensed physician (MD or DO) OR a physician's assistant (PA) or an advanced registered nurse practitioner (ARNP) authorized by their responsible licensed physician.
- Parts A and C of this form must also be completed before the school can make meal modifications.
- If a school chooses to make the meal modifications, they will continue until a medical authority requests that the
 modifications be changed or stopped on Form 19-C, which is available from the school.
- It is strongly recommended that a medical authority annually update the prescribed diet order.

3. Substitution for fluid cow's milk due to lactose intolerance, allergy, vegan diet, religious, ethical or cultural reasons:

- A school has the option to make a substitution for fluid cow's milk that is requested by a parent/guardian, but that is not
 prescribed by a medical authority.
- Parts A and D of this form must be completed before the school can make a substitution for fluid cow's milk.
- If a school chooses to provide such a substitution, they will continue until a parent/guardian requests that the substitution be changed or stopped on Form 19-C, which is available from the school.

Part A. Student, Parent/Guardian & School Contact Information – To be completed by a parent/guardian or school contact person				
Student's Name:	Date of Birth:	School:		
Parent/Guardian's Name:	Parent/Guardian's Phone:			
School Contact's Name:	School Contact's Phone:			
Part B. Prescribed Diet Order – This part must be completed by a medical authority as specified above.				
Check ONE: Disability OR Food allergy/intolerance or other medical condition that does not rise to the level of a disability				
2. Specify the disability, food allergy/intolerance or medical condition related to the prescribed diet order.				
3. If the student has a disability, what major life activity is affected? Example: Allergy to peanuts affects ability to breathe.				
 Type of Special Diet: Check if not applicable OR specify the type of special diet (e.g. low sodium, gluten-free, diabetic, etc.). 				

5. Modified Texture:	☐ Not Applicable	☐ Chopped	☐ Ground	☐ Pureed		
6. Modified Thickness of Liquids:	☐ Not Applicable	☐ Nectar	☐ Honey	Spoon or Pudding Thick		
7. Special Feeding Equipment: Check if not applicable OR list special feeding equipment (e.g. large handled spoon, sippy cup, etc.).						
 8. Foods to be Omitted and Substituted: Check if not applicable OR list specific foods to be omitted and substituted. If more space is needed, sign and attach additional sheet of paper. IMPORTANT: For a student who does not have a recognized disability, the only fluid cow's milk substitutions allowed by USDA are: (1) lactose-free fluid cow's milk or (2) a non-dairy beverage with a nutrient profile equivalent to fluid cow's milk as specified in federal regulations. Currently the only beverages meeting these specifications are certain brands of soymilk.
